Sara: Can you please share with council the original motion to put the \$1.5 million into reserve for the Y pool?

My recollection is that the money was to help the Y, not pay the entire costs, and receiving the money was contingent on the Y coming up with a specific amount of funds on its own within a specific deadline. That deadline was not met.

The money was, as I recall, left in reserve to allow the Y more time to come up with their money. It was never intended as a gift, just as partial funds, nor was any additional money ever promised. I do not recall for how long the money was put back into reserve, however, and would appreciate it if you or Marjory could clarify this.

If there were any subsequent motions or bylaws to pledge additional funds, can you please also share them?

Thanks

Ian

Good Morning Marta

Marta last night after the meeting at the library when I met with you Penny and Brian I left with the impression that Brian believed that the Town was paying the total cost of the YMCA Pool expansion.

I must say that at no time did I believe that Town were committing anything more than the original pledge of \$1.5 million towards the YMCA portion of the project.

I was very surprised with Brains comments and wonder if you would clarify what you believe was promised to the YMCA.

Rick

Fellow Council members please pass along your thoughts
